

AREA SKI RESORTS

Utah has “The Greatest Snow on Earth®”, with an average of 500” of the planet’s lightest and driest powder annually. We also feature some of the greatest ski resorts on earth. Home to 14 world-class alpine ski resorts, Utah can’t be beat for its terrain and consistency of the lightest, deepest powder around. Located within minutes from the Waldorf Astoria Park City are three of North America’s best resorts, including:

CANYONS

Waldorf Astoria Park City is located at the base of the Canyons, Utah’s largest ski resort – and the fifth largest resort in the United States. Our dedicated gondola offers access to over 4,000 acres of skiable terrain including open bowl, steep terrain and pipes, plus and a park for both snowboarders and skiers alike. www.thecanyons.com

PARK CITY MOUNTAIN RESORT

Within a few minutes’ drive guests will find two other well-known, world-class resorts.

Park City Mountain Resort, the training headquarters for the U.S. Ski Team and a stop on the World Cup, features everything from terrain parks to steeps to long cruising runs — up to three and a half miles long. www.pcmr.com

DEER VALLEY RESORT

Renowned for its pristine runs, Deer Valley is groomed to perfect corduroy every day, as well as offering a pampered service unparalleled in the industry. Like only of a handful of North American ski resorts, Deer Valley is still exclusively dedicated to skiers and was ranked the number one ski resort in North America this year by SKI Magazine. www.deervalley.com
